Experience

- **Vinove Software** | Software Developer | MAY 2025 -- JULY 2026 | Gr. Noida, India
 - Led backend-frontend integration for 3 major features, architecting optimised DTOs that minimised API payload size by 35% and improved data transfer efficiency.
 - Designed and deployed 15+ RESTful APIs using Spring Boot 3.x, handling 200+ concurrent requests with an average response time of 200ms.
 - Accelerated 10+ SQL queries using indexing and query restructuring, reducing execution time from 1.2s to <100ms and improving overall system performance by 40%.
 - Integrated JWT-based authentication and role-based access control using Spring Security, securing 15+ API endpoints across the application.
 - Refactored 2,000+ lines of legacy code using SOLID principles, enhancing code maintainability and reducing technical debt by 40%.
 - Collaborated with 4 cross-functional teams (Product, QA, Design) across 6 sprints, delivering 100% of committed features on time.

Projects

- **Enterprise Warehouse Management System** | [GitHub](#) | [Live Demo](#)
 - Established a cloud-based inventory management system with real-time tracking and ACID-compliant transactions.
 - Eliminated manual data entry by 90% and training time by 50% through intuitive UI and automation.
 - Implemented JWT authentication with 24-hour expiration and role-based access control.
 - Prevented stockouts with automated low-stock alerts and inventory forecasting.
 - **Tech Stack:** Java Spring Boot | JPA/Hibernate | PostgreSQL | React.js | RESTful API.
- **Fleet Management and Route Optimisation Engine** | [GitHub](#)
 - Developed a centralised fleet management REST API with vehicle-driver assignment and delivery state machines.
 - Embedded OSRM/Google Distance Matrix APIs for algorithmic multi-stop route sequencing.
 - Reduced total travel distance per fleet dispatch by 15% through refined route planning.
 - **Tech Stack:** Java Spring Boot | JPA/Hibernate | SQL | Spring WebFlux | RESTful API | Swagger | Docker.
- **AI Assessment Creator** | [GitHub](#) | [Live Demo](#)
 - Created an AI-powered question paper generator serving teachers with real-time WebSocket updates – 3x faster exam creation using Groq LLM with automatic model failover.
 - Engineered BullMQ + Redis job queues supporting 50K+ monthly operations.
 - Supported 5+ question types (MCQ, Numerical, Diagram-based) with one-click PDF export.
 - **Tech Stack:** Next.js | TypeScript | Express | MongoDB | BullMQ | WebSocket | Groq API | Tailwind CSS | Docker.

Technical skills

- **Languages & Frameworks:** Java (17) | Spring Boot | Spring Data JPA | Hibernate | Spring Security | RESTful APIs | C | C++ | Python.
- **Databases & Storage:** MySQL | PostgreSQL | MongoDB | Redis | BullMQ.
- **Frontend tools & Frameworks (Decent):** HTML | CSS | Tailwind CSS | React JS | JavaScript | Express Js.
- **Cloud:** AWS (EC2,S3,RDS,IAM) | Docker | Vercel | Render.
- **Build & Testing:** Maven | Unit Testing (JUnit, Mockito) | Postman | Swagger.
- **Tools & Version Control:** Git | GitHub | IntelliJ IDEA | AI-Assisted Development (Claude, GitHub Copilot, Gemini).
- **Core Concepts:** Microservices | JWT/OAuth Authentication | Transaction Management | WebSocket | Message Queues (BullMQ/Redis) | Exception Handling | Agile/Scrum | SDLC | CI/CD Pipeline | Software Development | Relational Databases.

Soft Skills

- Communication & Collaboration
- Problem-Solving & Analytical Thinking
- Adaptability & Continuous Learning
- Ownership & Accountability

Education

- Dr A.P.J Abdul Kalam Technical University, Lucknow
 - Bachelor of Technology (B.Tech) | Computer Science and Engineering | 2021- 2025
 - **CGPA: 8.26/10.00 | I-Div with Distinction**

Achievements

- **AWS Academy Graduate-** AWS Academy Cloud Foundations (EC2, S3, RDS, IAM, Networking) | Issued Apr 2024
- Exploring Ethereum Integration in Property Management: Real Estate on the Blockchain- **Research Paper** | journalcird.org
- **Problem Solving:** 150+ problems solved across Data Structures & Algorithms | [LeetCode](https://leetcode.com)
